De acordo com a Sefaz, R$ 22,6 milhões é o valor a ser compensado para a empresa com a isenção do ICMS, que visa visa compensar o aumento dos custos da geração e tratamento de água pelo Programa Água para Manaus (Proama)

O Governo do Amazonas vai conceder isenção do Imposto Sobre Circulação de Mercadorias e Serviços (ICMS) na conta de energia da empresa Manaus Ambiental. A decisão, que consta de um Projeto de Lei de autoria do Executivo Estadual aprovado no final do mês passado na Assembleia Legislativa do Estado (ALE-AM)I e que aguarda apenas a sanção do governador José Melo, vai beneficiar diretamente os consumidores da concessionaria dos serviços de água e esgoto, impedindo o aumento da tarifa. A renúncia do imposto também servirá para compensar dívidas passadas de fornecimento de água que o Governo mantém com a concessionária.

De acordo com o secretário estadual de Fazenda, Afonso Lobo, a isenção visa compensar o aumento dos custos da geração e tratamento de água pelo Programa Água para Manaus (Proama) a partir de abril do ano passado. A Cosama, que administra o sistema, aumentou em 34,5% os custos pelo fornecimento de água à Manaus Ambiental, saindo de 0,44 para 0,59 centavos por metro cúbico de água.
